DETAILED ACTION

Election/Restrictions

1. Claims 1-100 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 11.
2. Applicant's election with traverse of claims 1-100 in Paper No. 11 is acknowledged. The traversal is on the ground(s) that it is improper. This is not found persuasive because applicant discloses different embodiments including one having a first and second curved surface as illustrated in figures 17-19 and recited in independent claim 101.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

4. Claims 1-100 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Hoen (6253001).

Art Unit: 2873

Conclusion
